Wireless Security Networks

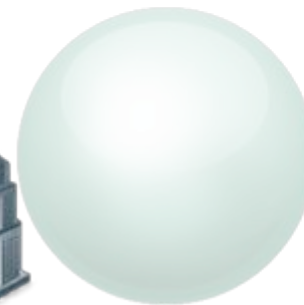

## Reliable Security Networks

- Developer
- Manufacturer

## Wireless technology designed for city & county size network capacity

- Municipalities
- Public Facilities
- Loading Docks
- Ships
- Businesses
- Marinas
- Hotels
- Residential

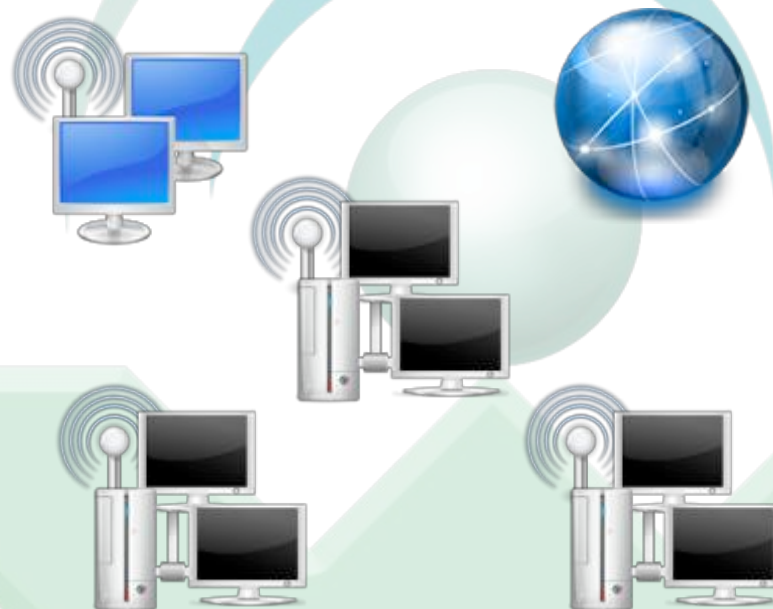

## Wi-Gate Series Access Points (AP)

- Large Radius Range
- Intelligent Network Resources

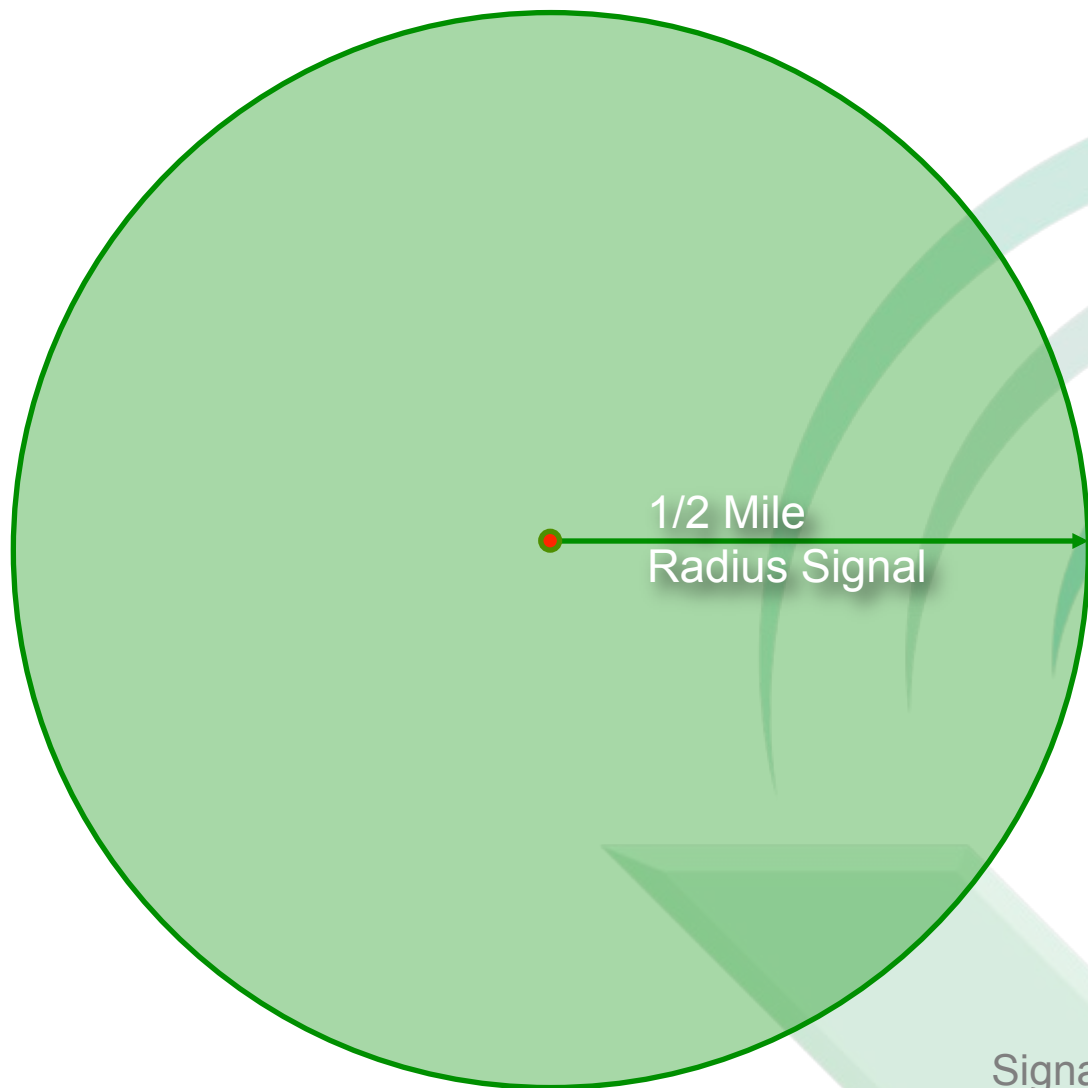

## Launch IP Video Surveillance, Access Control, Biometrics, or any IP base device application

- Unlicensed:
  - 2.4 GHz (Wi-Fi)
  - 5.8 GHz (Backhaul)
- Licensed:
  - 4.9 GHz (Public Safety)

# Powerful Wireless Coverage

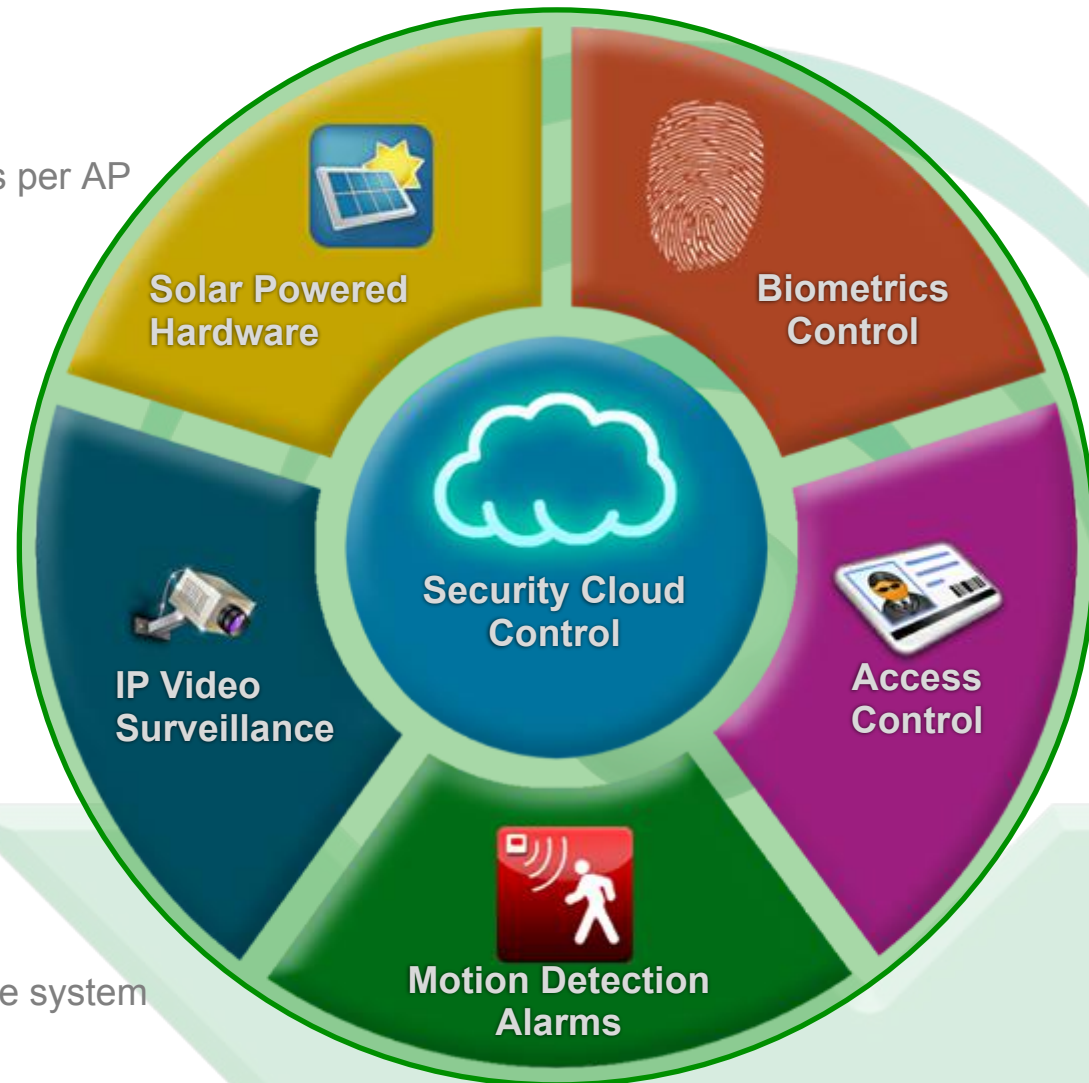

WIALAN  
TECHNOLOGIES

Signal Range per Access Point

## IP Security Cloud Advantages

- Handle multiple IP security applications per AP
- Solar powered cameras & AP's
- IP cameras in any remote area
- Biometrics access control
- Motion sensor control
- Access control
- Low cost installation
- Quick implementation
- No trenching or running wires
- Easily integrated to existing surveillance system

## Each Wi-Gate is a Network

- ½ Mile Radius Signal Range
- VPN server (128 bit encryption)
- Encrypted Mesh Support
- Pentium 4 class processor
- Network Access Translation Support (NAT)
- Bandwidth Shaper
- Quality of Service ( three levels)
- Traffic Analyzer
- Port Mapping Support
- Client Signal Analyzer
- Modular Design
- Patented Hermetically Sealed Enclosure

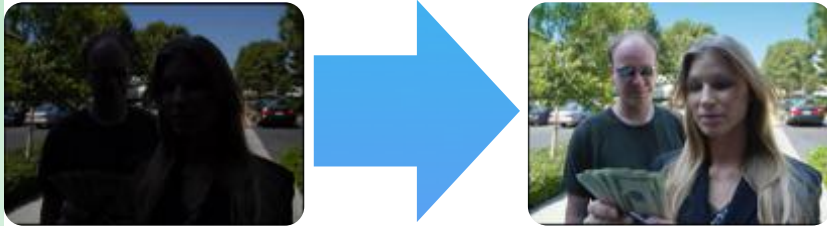

**Patented Hermetic Seal: Nema 3.3R, 4.4X, 12, & 13 complaint. Withstands hot, cold and humid weather. Its hermetically sealed patented design dissipates heat & cold thus stabilizing internal temperature.**

# High Tech Surveillance Solutions

**WIALAN**  
TECHNOLOGIES

**High Definition Cameras**

**Auto-enhance Image Technology**

**License Tag Cameras**

**Mobile Wireless Surveillance**

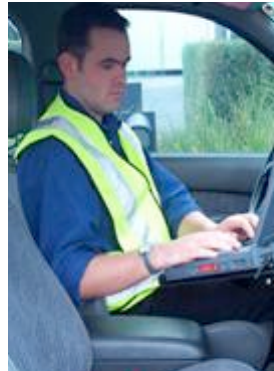

## State of the Art Technology

- 4.9 GHz Public Safety Frequency
- Mobile Surveillance Feed
- HD Cameras up to 5 Megapixels
- Color Night Vision Technology
- Fast/Slow Motion License Plate Tag Cameras
- Motion Sensor Activation
- Wireless Centralized Control and Monitoring
- Mobile Surveillance on iPhone and Blackberry
- Digital Video Backup
- DVD Burning DVR/NVR

# The Miami Herald

“Wireless Miami-Dade has partnered with WI-FI providers, Motorola, Nortel, Cisco, and **Wialan Technologies**. Each park is sponsored by a different company. Goulds Park is sponsored by Wialan.”

## The Miami Herald

*“Our partnership with Wialan Technologies will enable County residents to surf the Internet, work and learn in a pleasant outdoor setting. It will help close the digital divide and keep our parks safe through the use of wireless security cameras,” Mayor Alvarez said.*
